# MEMORIAL TYPES

## GRASS MARKERS/FLAT MARKERS

A grass marker (or flat marker) is a marker that sits flush with the ground. Ground maintenance is generally easier with a flat marker because lawnmowers can pass over it without hitting the stone. The marker typically measures 4 inches from the ground up to the top of the granite. Standard measurements are: single - 24 inches long, 12 inches wide and 4 inches high; companion - 48 inches long, 12 inches wide and 4 inches high. Some cemeteries only allow flat markers in specific sections, so check with your cemetery sexton to determine what is allowed in your area.

## BEVEL MARKERS/HICKEY MARKERS

A bevel marker, also known as a hickey marker, sits flat on the ground. It measures 6 inches high at the back of the stone and 4 inches high at the front of the stone, giving the face a 2 inch drop or beveled top. Standard measurements for bevels are similar to grass markers: single - 24 inches long, 12 inches wide and 6 inches high; companion - 48 inches long, 12 inches wide and 6 inches high. Bevel markers do not sit flush with the ground and cannot be used in place of a flat marker.

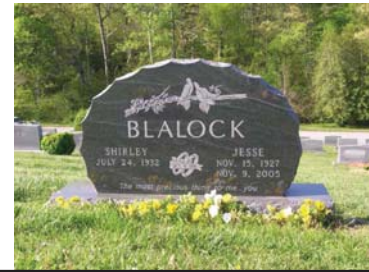

## SLANTS

A slant memorial has a straight back, a flat bottom and a slanted face. It can have an oval, serpentine or straight top. The bottom is typically 10" wide from front to back and tapers up to the top. This means that the slant can be set directly on the ground or concrete pad without needing a granite base for support. Some families do prefer to have a granite base under the slant for height. A single slant typically measures 24 inches long, 10 inches wide and 16 inches high; a companion slant will measure 48 inches long, 10 inches wide and 16 inches high.

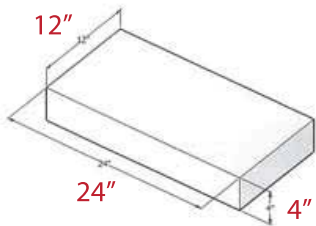

## UPRIGHT MONUMENTS

Upright monuments are the most popular memorials. They have a wide variety of shapes, sizes and finishes. The die (or tablet) can range in thickness from 6 inches to 12 inches. Typical measurements for a single die is 24 inches in length, 6 inches thick and 20 to 24 inches high. The base will measure 36 inches long, 12 inches wide and 6 inches high. For a companion monument, the standard measurement for the die can range from 42 to 48 inches long and have a base of up to 60 inches in length. These sizes are standard but can be made larger or smaller, depending on preference.

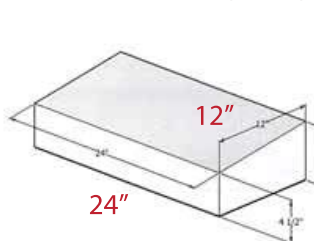

## MEASUREMENTS 1-0 = 12 inches (or 1'0")

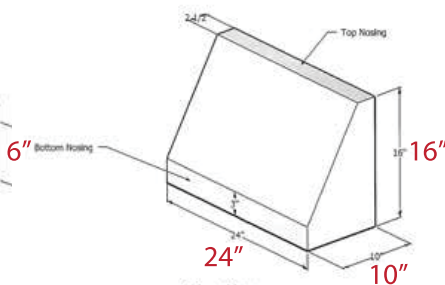

Single Flush  
Flush 24 x 12 x 4

24 x 12 x 4 is the same as  
2-0 x 1-0 x 0-4

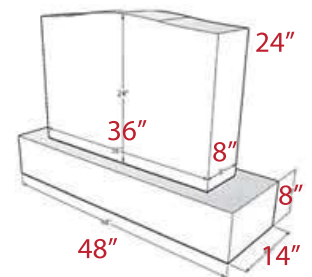

Single Bevel  
Bevel 24 x 12 x 6

24 x 12 x 6 is the same as  
2-0 x 1-0 x 0-6

Single Slant  
Slant: 24 x 10 x 16

24 x 10 x 16 is the same as  
2-0 x 0-10 x 1-4

Double Monument  
Tablet: 36 x 8 x 24  
Base: 48 x 14 x 8

# GRANITE TERMS

*Each of the options below can be customized with any design of your choice. We have a large selection of headstone designs as well as offer custom design services. As a manufacturer, Eagle specializes in personalizing each memorial to your exact specifications.*

## SHAPE CARVING

The outline of the design is sandblasted, and then shaped, to give a 3-Dimensional appearance. Shape carved designs usually include roses, flowers and praying hands.

## SANDBLASTING/FLAT CARVING

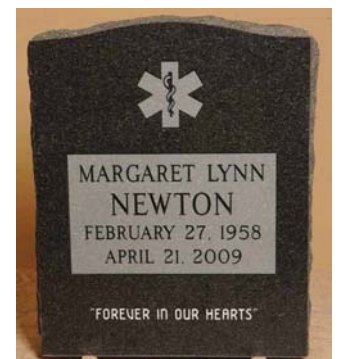

A sandblasted design generally starts with a rubberized mask or template, outlining the design and then sandblasting exposes the surface of the granite to create differences in color and texture. Sandblast designs are the most requested carvings, especially on flat markers and smaller monuments.

## SCULPTING

Sculptures usually begin with thumbnails and full-scale drawings before the image is transferred to the granite by hand sculpting with pneumatic chisels and other granite carving tools. The quality of a hand sculpted memorial will vary depending on the individual sculptor.

## HAND OR LASER ETCHING

Hand etchings are created using diamond tipped engraving tools to draw or etch directly onto a polished monument. An etching looks best on polished black granite because this will give you the greatest contrast. Etchings can also be done using laser machines. These are called laser etchings. Either type of etching can also be hand colored after the initial design is completed. Once again, the quality of the hand coloring will vary depending on the individual in-house artist.

# GRANITE CHOICES

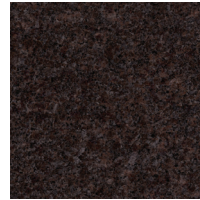

American Black

Cherokee Marble

Blue Ridge

Dakota Mahogany

Eagle Black

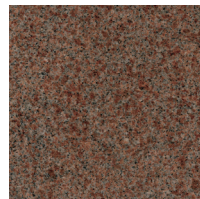

Eagle Blue

Kershaw

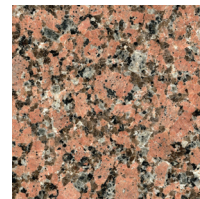

Medium Barre

Morning Rose

Salisbury Pink

Texas Rose

Pink Pearl

Eagle Ruby Red

Jet Black

Grey Cloud

## DOMESTIC GRANITES

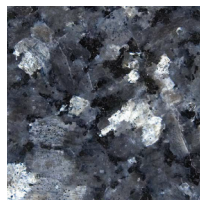

These are quarried in the US from Eagle owned quarries - as well as out of state quarries - to offer as many choices as possible. Each color has its own unique variegation, color and qualities that makes each one unique. These colors are manufactured in our Elberton plant and generally take 4 to 6 weeks for delivery.

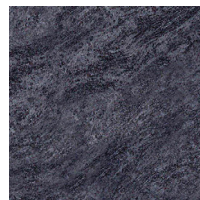

Import Gey

Import Jet Black

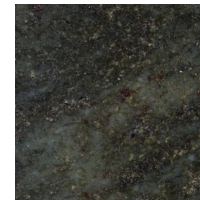

Blue Pearl

Bahama Blue

India Red

Tropical Green

## IMPORT GRANITES

Eagle maintains a large import inventory of granite colors - for our most popular memorial designs. We stock sculpted monuments, benches, die and base combinations and columbaria or mausoleum products in many of these colors.

# Single Markers

## Single Grassmarkers

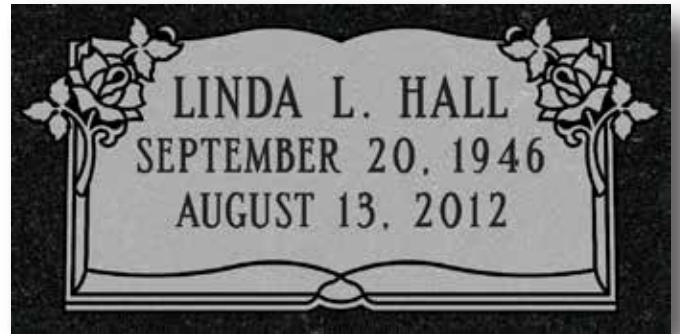

(These designs are available for single grassmarkers as well as single bevel markers)

Many of these designs fit STANDARD granite marker/bevel marker sizes. Custom sizes are also available. Please see your counselor when choosing a design and ordering a coordinating granite product.
