

# BRONZE MEMORIALS

## Certificate of Warranty

When you purchase a memorial, you have satisfied a desire to have a name immortalized forever despite the vicissitudes of time. Whenever that name is looked upon by those remaining it will serve as an everlasting reminder of the thoughts and deeds of one whose memory is treasured. This memory is a sacred trust.

Your decision to have a memorial was one of the most important you have ever had to make. This memorial is the key which will open your memory back to all the years of happiness, the years of sorrow, the years of joy - to thoughts that remain of a time which can never be re-lived.

We certify to you as the ultimate purchaser, and to the cemetery, that your memorial is among the finest that can be manufactured. True memorial bronze has been used in casting your memorial. The alloy content of the bronze used is as follows;

Not less than 87% Copper  
Not more than 5% Zinc  
Not more than 2% Lead

Not less than 5% Tin  
All other elements  
not to exceed 2<sup>1/20</sup>%

**All letters, numerals and ornamentation are hand-chased and highlighted. The bronze is mounted to the granite base with threaded anchor rods secured through the granite base with washers and threaded nuts, also of bronze.**

The skilled craftsmanship is exceeded only by the personal attention which has been given to every detail of its manufacture. We have combined beautiful and superlatively durable granite with the ageless beauty of bronze to serve as an everlasting tribute to your loved ones. Our promise is that our memorial will offer the satisfaction of remembrance in its most permanent form. It will become a most reassured possession.
